## PROFESSIONAL SUMMARY

Java Developer with 6 months of hands-on experience in building web applications using Java, Spring Boot, and Angular. Proficient in developing RESTful APIs and integrating frontend-backend components. Skilled in SQL, JavaScript, and core OOP principles. Quick learner with strong problem-solving skills and a collaborative mindset.

---

## SKILLS

Programming Languages:	Java (basics) ,MySQL
Frontend Technologies:	HTML5, CSS3,
Frameworks & Libraries:	Spring Boot, Hibernate, Single-SPA
Web Technologies:	REST APIs

---

## PROJECTS

### Library Management System

A Java-based desktop/web application designed to manage and automate library operations such as book inventory, user records, and transaction tracking.

- Designed relational database schema and implemented CRUD operations using **MySQL/PostgreSQL**.
- Developed core modules including **book management, member registration, issue/return tracking**.
- Implemented search and filter functionality to allow efficient retrieval of books and user details.
- Developed a simple GUI using **Java Swing** / or frontend using **HTML/CSS and JavaScript** (if web-based).
- Ensured data integrity and validation with exception handling and input validation techniques.
- Followed object-oriented principles and modular design for better scalability and maintainability.

---

## EDUCATION

### B.Tech – Computer Science and Engineering

Jawaharlal Institute of Technology, Broawan | Graduated: 2022 | **CGPA:** 6.93 / 10

High Secondary School- Science

Govt.High Secondary School, Gogawan | Graduated:2019| **CGPA:** 7.5 / 10

Higher Secondary School- PCM

Govt.High Secondary School, Gogawan | Graduated:2024| **CGPA:** 7.6 / 10
