PROFESSIONAL SUMMARY

Results-oriented Full Stack Developer with 1 year of experience in building scalable enterprise applications. Proficient in Java, basic Spring Boot, and Angular 16 for developing end-to-end solutions. Skilled in designing responsive frontends and developing RESTful backend services. A quick learner with strong problem-solving skills and a collaborative mindset.

SKILLS

Programming Languages:	Java (basics) Angular 16
Frontend Technologies:	Angular 16, TypeScript, JavaScript, HTML5, CSS3,
Frameworks & Libraries:	Spring Boot, Hibernate, Single-SPA
Web Technologies:	REST APIs

WORK EXPERIENCE

Core Card Software| Software Engineer   **July 2022 –July2023**

- Developed and maintained web applications using Java 17, Spring Boot, and Angular 16, achieving 90% code reusability.
- Built and integrated RESTful APIs using Spring Boot; documented with Swagger and tested via Postman.
- Designed and optimized database schemas in MySQL/PostgreSQL, improving **query performance by 30%.**
- Implemented responsive UI components with Angular 16, HTML5, and CSS3, **enhancing user experience by 40%.**
- Participated in Agile development using JIRA.

PROJECTS

Core Credit Web Application:

Core credit is a web application design for bank employees, offering range of sophisticated feature including user management, customer management, account management, and administration functionalities.

- Utilized **Java 17**, **Spring Boot**, **Angular 16**, **JavaScript**, **HTML**, **CSS**, and **SQL** to implement feature-rich functionalities.
- Developed reusable Angular components and implemented reactive forms to improve frontend **efficiency by 40%.**
- Optimized databinding and API integration in Angular for real-time data updates and seamless user experience.
- Authored design and technical documents to support and guide the development process.
- Collaborated in an **Agile development environment** using **JIRA** for sprint planning, task tracking, and daily stand-ups.

Core Admin Web Application

Core admin is a web application design for program managers of banking organization offering a range of sophisticated features including user management, business management, card creation and reports related functionalities.

- Built reusable Angular components and integrated form validations to enhance business workflows and maintain consistency.
- Participated in sprint reviews and retrospectives, contributing to **95%+ task completion** within estimated timelines.

EDUCATION

B.Tech – Computer Science and Engineering

Chameli Devi Group of Institutions, Indore | Graduated: 2022 | **CGPA:** 7.4 / 10
